Discussion By William Parmer

He presented a plan for a future development project on his property. He wants to develop a RV Resort for vehicles to only stay for a few days. This is not the one that they can rent a space and live there. The Council ask several questions about the entrance and exit. There would be 2 ways one to enter and the other to leave. This will be discussed later in the next workshop. Mr. Parmer would be checking on utilities to report back in May.

Item 3

Discussion on a Proposal (Chief Tom Peoples)

School safety is a primary concern for parents, and law enforcement. Most large school districts have on staff their on officers. The public charter schools do not have this available to them. Legislation is being proposed to change this by a State Representative The Honorable Major Tinderhold. The proposal is to make the officers that represent Oak Ridge, and are employed by Tier One Protection Agency a full time officer. They would serve both agencies. This would allow them benefits that are not available to them now. The cost would not be transferred to the city. It would be covered by Tier One. The Officers would have a broader perspective, and arrest power. This would involve MOU's with several agencies. It is a plan when enacted will be used all over the State. Oak Ridge will be the model for others to follow. We also heard from Dr. Ted Northrop on his initiative to help troubled students to direct them in a new direction from self destruction. The Council was impressed with the presentation, and it will be on the next agenda.
